**VEZOS**

**Think different. Think strong!**

*"...VEZOS motto is focused on our brand's products and innovation, by offering the market a different and innovative solution with each product designed and manufactured by our team. Innovation is VEZOS aim; each product has been carefully evaluated in order to offer its users and the market a new technology and a new invention. We think different to the competition, we think out of the box and that is why the VEZOS products have changed the industry's mentality over the years. Sanding with a gripping effect, achieving amazing working heights, tunnel cooling hydraulic systems, upright & compact airless designs are only a few of VEZOS innovations that are included in our portfolio.*

*We think different, we think strong, as any product that we present to the market becomes a lifelong partner to its user..."*

*- Dimitris Vezos, Inventor*

A handwritten signature in blue ink, appearing to read 'D. Vezos', with a long horizontal flourish extending to the right.

## Direct Immerse Pump

---

### Fully Hard Chromed Hydraulic Pump

VEZOS direct immerse hydraulic pump, is specially designed for heavy & thick materials, no cogging due to large sized fluid passage, enabling the pump to work under high pressure and tough materials. VEZOS fully hard chromed long pump and slow stroke design, delivers the thickest materials for the roughest jobs.

## VEZOS Unique Features

---

- ⇒ **Change Suction Kit In Seconds**
- ⇒ **Direct Immerse or Suction hose kit**
- ⇒ **No tools for changing suction method**

## Suction Hose Paint Kit

---

### No tools, change in seconds

On the spot, no tools required, paint supply method conversion. Runner Hydraulic Paint & Texture Airless sprayers, are available with a direct immerse paint pump and an easy on the spot paint suction hose kit. Using an immerse paint pump is perfect when spraying texture or stucco paste. The pump can easily be cleaned due to the textures material, but the same cannot be said for paint materials, as washing off the paint from an immerse direct pump is a difficult task. VEZOS Runner range has an easy to change suction hose paint kit, allowing the user to convert the paint pump from a direct immersion pump to a suction hose kit within seconds simply by removing the lower pump ending and adapting the suction hose kit and without any tools necessary.

**260 bar - 330 bar working pressure**

## 260 bar Working Pressure

### Runner Pro Series (Electric/Gas)

Runner Hydraulic Airless Sprayer has been named **“Beast”** by its users, definitely not because it lacks in design, as the Runner has an upright and compact structure that any hydraulic unit would envy. Its nickname is based on the extreme power that the Runner Hydraulic Airless Sprayer operates on. Offering an outstanding and unique for its category, 260 bar working pressure, spraying texture, stucco paste & paint materials, is simply a game for this innovative airless sprayer.

VEZOS Runner Pro series is the strongest hydraulic airless sprayer in the market, with a delivery volume of 6.4 – 12 l/min and an outstanding 260 bar working pressure.

### Materials:

All paints, texture, primers, acrylics, stucco paste, drywall mud, elastomeric coatings, latex, epoxies...

## 330 bar Working Pressure

### Runner Max Series (Electric/Gas)

Runner Max series offers a 330 bar working pressure with a delivery volume of 9 l/min for heavy duty jobs such as metal constructions and industrial jobs, with epoxy, fireproofing & high solid materials. Convertible in power & pump source method and upright & compact design.

A heavy duty frame holds together this unique 330 bar hydraulic sprayer, ready to achieve the toughest construction jobs.

## VEZOS Unique Features

- ⇒ 260 bar working pressure
- ⇒ 330 bar working pressure
- ⇒ 6.4 - 12 liters/min (Pro Series)
- ⇒ 9 liters/min (Max Series)

## Upright & Compact Design

### Compact Size

Runner Hydraulic Airless Paint & Texture Sprayers have an UNIQUE upright and compact design.

The entire units dimensions are an amazing **73.5cm x 61.5cm x 74.5cm (H)** compared to a classic long carted hydraulic sprayer.

## VEZOS Unique Features

- ⇒ Upright Design
- ⇒ Compact Structure
- ⇒ All In One Frame
- ⇒ Adjustable Handle
- ⇒ No Tools Needed
- ⇒ Less Storage Space
- ⇒ Fits In All Vehicles
- ⇒ No Long Cart

## Easy Transportation

### Fits in all vehicles

Due to the Runners upright design the entire unit can be easily transported in any type of car or van, storage without taking up too much space and offers easy mobility within the construction site. This upright design keeps the entire unit protected in a box type frame, including an extra-large hydraulic oil tank, retractable handle and new technology Tunnel cooling system.

## Electric / Gas Power Kits

### Instant change, no tools

When it comes down to choosing the correct professional sprayer, contractors have a lot to take into consideration. One major decision used to be the power source of the sprayer, technology has changed and convertible hydraulic airless sprayers solve this issue.

Runner Hydraulic Airless Sprayers, are available in Electric or Gas, with an instant power source exchange kit, no tools are needed. The power kits are easy to change by simply 3 steps, unscrew the security nut, loosen the belt and remove the motor/engine kit and replace with new kit and you are ready to go!

**Simply, easy & fast...**

## Tunnel Cooling System

### TCS VEZOS Smart Technology

Correct and constant cooling is an absolute necessary to a hydraulic driven unit. VEZOS TCS Smart Technology cooling system, ensures the Runner Hydraulic Sprayers to perform under the correct temperature through-out the whole spraying procedure. TCS cooling systems cools all components of the unit, even the actual paint pump, compared to the competition that cools only part of the hydraulic oil tank. Thanks to this innovative cooling system, Runner Hydraulic Airless Sprayers deliver constant and solid performance from beginning to end.

*Think different. Think strong!*

TO LINE STRIPING

Pioneering once again in the construction industry VEZOS offers a cost efficient solution to contractors, Runner Hydraulic Airless Sprayer is a multifunctional unit, designed and built for heavy duty applications .

Texture & paint applications with a performance of 260 bar (Runner Max 330 bar). Instant paint suction kit replacement - no tools needed, Finally with the innovative R-LinePack attachment, the Runner Airless is transformed to a line striper . No need to purchase a striping machine for line striping applications , simply connect the striping kit .

**Runner Hydraulic Airless & R LinePack are a VEZOS INNOVATION!**

VEZOS with the Runner Hydraulic Airless Sprayers have managed to eliminate all competition in the airless industry, by designing and offering first to the construction market a hydraulic texture & paint sprayer that not only converts in power but also in application.

One unit, several potentials

### Steering & spraying control

## Transform in seconds

### Texture - Paint - Line Striping

Connect the Runner Airless by rolling the unit to the R-LinePack, the accessory will click into place. Secure with the foot break.

Attach the steering / spraying control on the main units handle. Adapt the airless spray gun in the holder.

The R-LinePack has transformed the Runner into a hydraulic line striping machine, saving its user the cost of an additional unit.

### NO TOOLS REQUIRED

## Cost Saving Ideas

### Runner Airless + R-LinePack

Choose between the Runner Airless editions, convert the sprayer from an electric to gas operated unit, from a direct immerse hydraulic pump to a suction hose material inlet sprayer, from a texture sprayer to a paint sprayer and finally finish of the transformation with the R-LinePack, converting the application and using the same airless sprayer to line stripe parking lots, school playgrounds, malls, local roads, crossings, athletic courts ... etc.

All conversions & transformation take seconds, don't need any tools and most important save time & money !
