# TRANSFORM YOUR AIRLESS

Nicknamed "Beast" Runner Pro airless sprayer has the strongest performance in the industry, Offering an outstanding and unique for its category, **260 bar** working pressure, spraying texture, stucco paste & paint materials, is simply a game for this innovative airless sprayer.

Runners Compact size and upright design makes transportation and storage a simple task. The entire units dimensions are an amazing **73.5cm x 61.5cm x 74.5cm (H)** compared to a classic bulky & long carted hydraulic sprayer. New design, new innovation, new mentality.

Change the paint suction method instantly, on the job, without tools. From a direct immerse pump to a paint suction kit in seconds. VEZOS hard chromed hydraulic long & slow stroke pump, ensures no material clogging, due to large inlets for superior performance.

## Steering & spraying control

*Invented by*

# VEZOS

*Think different. Think strong!*

TCS Cooling System
