DURA - Medium size contractors **first** hydraulic sprayer -

DURA range of airless spraying equipment, matches up reliability & productivity for medium to large size contracting projects. **DURA Texture Sprayers** are equipped with VEZOS - **Black Pump Series** - a hydraulic slow stroke pump with proven excellence over the years, eliminating classic electric sprayers disadvantages that cause downtimes while on the job.

DURA Texture Sprayers, are ideal for contractors that apply interior & exterior coatings and airless paints on a daily basis. Expecting only the best out of a VEZOS hydraulic airless sprayer, **DURA Standard** & **DURA High-Flow** series cover a full range of material flow enabling professional contractors to choose the correct unit for their daily jobs.

DURA Standard

230 bar

5.9 l/m - 7.5 l/m

DURA High-Flow

177 bar

7.6 l/m - 10.1 l/m

Tough jobs require strong machinery

Medium to large contractors now have a choice !

HYDRAULIC AIRLESS

VS

ELECTRIC AIRLESS

- ✓ Tough operation regardless power
- ✓ Heavy duty equipment
- ✓ No downtimes due to often service
- ✓ Cost effective, no expensive controls
- ✓ High viscosity materials, textures, paint, mud
- ✓ Less service due to tough construction
- ✓ High working pressure, more productivity
- ✓ Large material inlets for heavy materials

- ✗ Sensitive to power current fluctuations
- ✗ Do not operate close to water
- ✗ Damage / burned electronic controls
- ✗ Expensive replace of electronic part
- ✗ Medium & low viscosity materials
- ✗ Expensive repairs
- ✗ Limited pressure with long paint
- ✗ Clogging of thick material

“Slow Stroke Hydraulic Piston Pump”

DURA
models & specs

**Accept no substitutes,
when looking for a professional hydraulic pump**

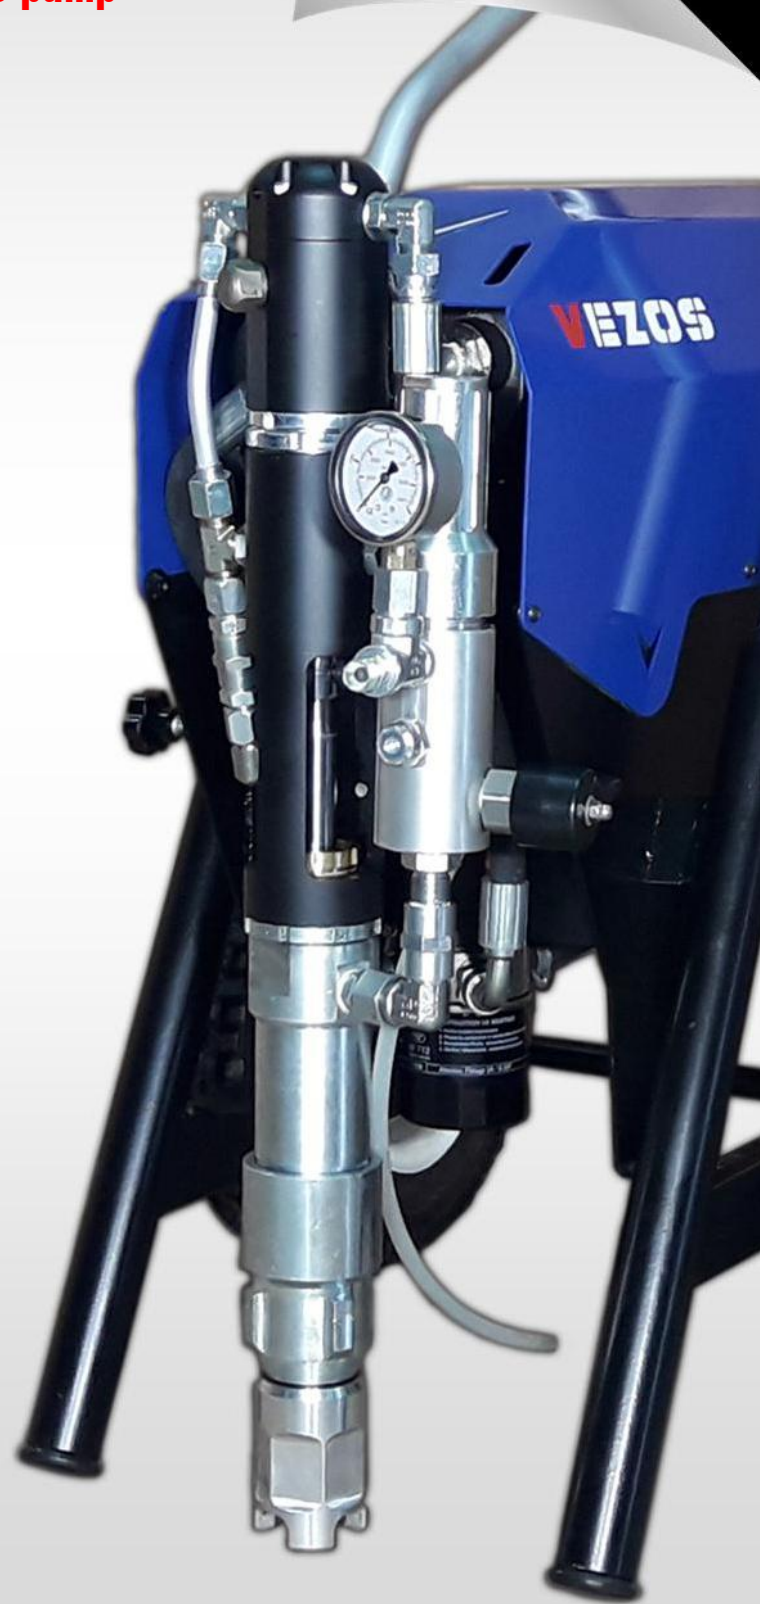

VEZOS has proven to the market that when it comes down to hydraulic fluid pumps, there is no comparison to a VEZOS pump.

DURA texture & paint sprayers are equipped with VEZOS **Black Pump Series** specially designed for heavy & thick materials enabling the pump to work under high pressure, avoiding material clogging and downtime while on the job.

Equipped with a hard chromed & stainless steel pump and intended for the toughest jobs, VEZOS Black Pump is up to the task.

With VEZOS on the spot supply conversion, **DURA** texture & paint sprayers are ideal for applying all type of coatings without wasting any time with unnecessary tools to convert the direct immerse pump into a suction supply kit.

DURA sprayers offer medium to large contractors the benefit, of a hydraulic airless sprayer, tailored to meet their own specific requirements.

DURA
High-flow

DURA
Standard

DURA-6 standard edition, is a step up for contractors taking on medium to large contracting jobs. Hydraulically operated, DURA-6 texture sprayer offers professional contractors a heavy duty sprayer that replaces the downsides of common electric piston units, enabling them to match quality and productivity to an airless sprayer that meets their own requirements.

DURA-6 is the ideal sprayer for internal and external spraying applications, with zero emission and a high productivity rate. VEZOS medium size DURA-6 sprayers reduce downtime and expensive repairs with a heavy duty constructed unit designed especially for the rough environment it is intended for.

Technical Specifications

Edition	Dura 6 Standard
Max Working Pressure	230 bar / 3350 psi
Max Flow Delivery	5.9 l/min
Power	3 hp
Motor	230 volt electric
Pump	Hard Chromed
Cart	Heavy Duty
Hydraulic Reservoir	5 liters
Weight	86 kg
Dimensions	65x61x74.5cm

Facts

- Slow stroke hydraulic piston pump
- Built-in filter
- Adjustable pressure
- Drain valve
- Electric motor 3hp
- 1-2 gun operation
- TCS - Tunnel cooling system
- 3/8" airless spray hose

Applications

Decorative texture & plaster
Medium to large interior / exterior jobs
Maintenance & coating jobs
Premixed & powder plaster
Heavy duty coatings
Industrial coatings

DURA
High-flow

DURA-6 **High-Flow** texture sprayers, offer a maximum material delivery of 7.6 l/min adjusted to 177 bar working pressure, making life easier for contractors that in average take on jobs with large coating surfaces. VEZOS hydraulic piston pump is equipped with a wide spring loaded inlet valve avoiding material clogging.

DURA-6 high-flow can be supplied with or without a built-in filter, depending on the materials each contractor works with.

Technical Specifications

Edition	Dura 6 High-Flow
Max Working Pressure	177 bar / 2600 psi
Max Flow Delivery	7.6 l/min
Power	3 hp
Motor	230 volt electric
Pump	Hard Chromed
Cart	Heavy Duty
Hydraulic Reservoir	5 liters
Weight	86 - 83 kg (bare)
Dimensions	65x61x74.5cm

Facts

- Slow stroke hydraulic piston pump
- Built-in filter (optional)
- High-Flow productive material flow
- Adjustable pressure
- Drain valve
- Electric motor 3hp
- Hard chromed pump
- TCS - Tunnel cooling system
- 1/2" airless spray hose

Applications

Elastomeric Coatings
Mud & Filler Coatings
Decorative texture & plaster
Medium to large interior / exterior jobs
Maintenance & coating jobs
Premixed & powder plaster
Heavy duty coatings
Industrial coatings

DURA-8 standard edition, is equipped with a powerful 4 hp electric motor with a spraying ability that can cover all types of everyday materials. No fear that this airless sprayer will ever let you down, hydraulically operated with a large 5 liter tank, the DURA-8 texture sprayer guaranties no downtimes, no power current fluctuations and the best productivity / cost ratio in the market.

Up to any task, DURA-8 proves to its users that the acquisition cost for this unit is incomparable to its productivity and profit maximization.

Choose between a direct immerse pump or a suction hose method, depending on the average jobs you take on.

Applications

- Decorative texture & plaster
- Medium to large interior / exterior jobs
- Maintenance & coating jobs
- Premixed & powder plaster
- Heavy duty coatings
- Industrial coatings
